Conditions of Sale

1. **REJECTION OF BIDS.** Any bid which is not commensurate with the value of the article offered, or which is merely a nominal or fractional advance, may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.
2. **THE BUYER.** The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.
3. **IDENTIFICATION AND DEPOSIT BY BUYER.** The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address. ¶ A deposit at the actual time of the sale shall be made of all or such part of the purchase prices as may be required. ¶ If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.
4. **RISK AFTER PURCHASE.** Title passes upon the fall of the auctioneer's hammer, and thereafter the property is at the purchaser's risk, and neither the consignor nor the Association is responsible for the loss of, or any damage to any article by theft, fire, breakage, however occasioned, or any other cause whatsoever.
5. **DELIVERY OF PURCHASES.** Delivery of any purchases will be made only upon payment of the total amount due for all purchases at the sale.
6. **RECEIPTED BILLS.** Goods will only be delivered on presentation of a receipted bill. A receipted bill presented by any person will be recognized and honored as an order by the buyer, directing the delivery to the bearer of the goods described thereon. If a receipted bill is lost before delivery of the property has been taken, the buyer should immediately notify the Association of such loss.
7. **STORAGE IN DEFAULT OF PROMPT PAYMENT AND CALLING FOR GOODS.** Articles not paid for in full and not called for by the purchaser or agent by noon of the day following that of the sale may be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage and any other charges will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser. ¶ In any instance where the purchase bill has not been paid in full by noon of the day following that of the sale, the Association and the auctioneer reserve the right, any other stipulation in these conditions of sale notwithstanding, in respect to any or all lots included in the purchase bill, at its or his option, either to cancel the sale thereof or to re-sell the same at public or private sale without further notice for the account of the buyer and to hold the buyer responsible for any deficiency and all losses and expenses sustained in so doing.
8. **SHIPPING.** Shipping, boxing or wrapping of purchases is a business in

which the Association is in no wise engaged, but the Association will, however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

9. **GUARANTY.** The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of the sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse. ¶ Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.
10. **RECORDS.** The records of the auctioneer and the Association are in all cases to be considered final and the highest bid shall in all cases be accepted by both buyer and seller as the value against which all claims for losses or damage shall lie.
11. **BUYING ON ORDER.** Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph, or telephone, if conditions permit, will be faithfully attended to without charge of commission. Any purchases so made will be subject to the foregoing conditions of sale, except that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale, and the purchase money will be refunded, if the lot differs from its catalogue description. ¶ Orders for execution by the Association should be given with such clearness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid for volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit must be sent or reference submitted. Shipping directions should also be given.

*These conditions of sale cannot be altered except by the
auctioneer or by an officer of the Association*

Mme. Oeben and Riesener, who completed it. The mounts were modeled by Duplessis and cast and shaped by Hervieu. The immense task was begun by the construction of a miniature model with wax reproductions of all the bronzes and other ornament, and the detail and finish of the craftsmanship was such that the original was not delivered by Riesener at Versailles until May, 1769.

The first copy was made by Dasson for Lord Hertford in the reign of Napoleon III, by special permission of the monarch, and three years were required for its completion; it is at the present day in the Wallace Collection. The present piece is in no way inferior to the more celebrated copy.
